Comments:

**MEETING OF NOVEMBER 15, 2016**

**TO:** Mayor and City Council  
**THRU:** Terry Gulley, Director of Transportation  
**FROM:** Jesse Beeks, Fleet Operations Superintendent  
**DATE:** October 18, 2016  
**SUBJECT:** Purchase of one Backhoe for Recycling and Trash Collection

---

**RECOMMENDATION:**

That City Council approve the purchase of one John Deere 310L Backhoe available off of the NJPA Cooperative Contract in the amount of \$90,316.56 through John Deere of Moline, IL for use in the Recycling and Trash Collection.

**BACKGROUND:**

Unit 693 was a 2010 John Deere Backhoe that was approaching its 7 year life expectancy. This backhoe is used for adjusting the loads for the transfer trailers and is essential to the day to day operations of Recycling and Trash. They do not have another piece of equipment that is capable of performing this duty.

The boom broke on unit 693 during a regular work day recently. This unit already had 88% of its original purchase price in life to date maintenance cost. Based on the cost of repair and the age of this backhoe, Fleet believes it would be uneconomical to repair this unit.

**DISCUSSION:**

Fleet recommends the purchase of one John Deere 310L Backhoe available off of the NJPA Cooperative Contract in the amount of \$90,316.56 through John Deere of Moline, IL for use in the Recycling and Trash Collection.

**BUDGET/STAFF IMPACT:**

Sufficient funds have been budgeted for this purchase. There is a shortfall in the collection that should be made up with the sale of the old unit.

This purchase was approved by the Equipment Committee on October 11, 2016 with a preliminary dollar amount.
