MEETING OF FEBRUARY 4, 2020

TO: Mayor and City Council

THRU: Susan Norton, Chief of Staff
Water & Sewer Committee
Tim Nyander, Utilities Director

FROM: Corey Granderson, Utilities Engineer

DATE: January 16, 2020

SUBJECT: **Approval of the purchase of two (2) sealing slide gates for the aeration basin at the Noland Water Resource Recovery Facility**

RECOMMENDATION:

Staff recommends the purchase of two (2) sealing slide gates for the aeration basin at the Noland Water Resource Recovery Facility from Haynes Pump and Process, LLC in the amount of \$32,150.00 plus applicable taxes.

BACKGROUND:

On June 18th, 2019, Fayetteville City Council approved Resolution 142-19, an engineering services contract with Jacobs Engineering to design the replacement of two large aeration-basin gates located under a reinforced concrete slab at the Noland WRRF. These gates are original to the aeration facility, are inaccessible, and are leaking. Replacement is necessary so that the plant may remain fully operational and have the ability to isolate each of the two aeration basin treatment trains.

DISCUSSION:

The labor for this project will be publicly bid at a later date, to coincide with lower-flow operations at the WRRF. The gates require a long fabrication lead-time and will be purchased directly by the city in advance and stored onsite. Bids for the gate fabrication were opened on December 17th, 2019 with Haynes Pump and Process, LLC submitting a low-bid of \$32,150.00. Taxes are estimated at \$3,134.63 for a total of \$35,284.63.

BUDGET/STAFF IMPACT:

Funds are available in the Wastewater Treatment Plant – Building Improvements project.
