**1. Old Business:**

**A. TRANSIT SHELTERS:** Review of draft priority list for transit shelter installation. Staff performed a review of more than 150 Ozark Regional Transit and Razorback Transit stop locations for placement of shelters and/or other amenities. Staff evaluated each stop location based on average number of boardings, the need for easements or right-of-way acquisition, existing amenities, and the amount of site work necessary for construction. The preliminary list was shared with the transit providers for their review and feedback. The Transportation Division's capacity to construct the shelter pads was also evaluated, and it was determined that construction of 10 shelter pads could be incorporated into the 2020 workplan. With that background in mind, staff presents the list of proposed transit stop improvements to be installed by the end of 2020. **(Staff requests a recommendation from the Committee to the Administration on this item)**
