MEETING OF NOVEMBER 2, 2021

TO: Mayor and City Council

THRU: Susan Norton, Chief of Staff

FROM: Tim Nyander, Utilities Director

DATE: October 13, 2021

SUBJECT: Pinnacle Ozone Solutions - Ozone Equipment Service Contract Renewal

RECOMMENDATION:

Staff recommends approval of a one-year renewal of the Ozone Equipment Service Contract with Pinnacle Ozone Solutions, LLC in an amount not to exceed \$24,920.00 for the ozone disinfection system at the Noland Water Resource Recovery Facility.

BACKGROUND:

The ozone disinfection system at the Noland WRRF includes specialized equipment that the manufacturer must provide. Pinnacle Ozone Solutions, LLC is the sole manufacturer and service provider of this specialized ozone generating equipment used at the treatment facility.

DISCUSSION:

Pinnacle will perform quarterly service visits, perform annual service items to the equipment, and perform bi-weekly remote monitoring of the system (26 total). With the regular testing and inspections that are included in a preventative maintenance agreement, potential problems can be identified in advance. These issues can then be resolved based on a schedule that makes sense for the city rather than dealing with costly downtime if an emergency occurs. Routine maintenance on the ozone equipment will also increase the longevity of the ozone system. A technician can identify simple repair issues before they become more serious or cause system failures. With a preventative maintenance agreement in place, the City can be confident that the system will continue to perform as designed.

Ordinance 6307 passed on May 5, 2020 and approved an initial one year contract with automatic renewals. Staff recommends approval to renew the annual service contract in the amount of \$24,920.00.

BUDGET/STAFF IMPACT:

Funds are available in the Plant Pumps and Equipment account within the Water & Sewer fund.
