9349	Approved 2024 Expansion	NA	\$ 36,499.46	Polaris Ranger	Polaris Sales Inc	NA	Y
The Fayetteville Police Department's Parks and Trails division emphasizes trail safety and building and sustaining community relations while patrolling the City of Fayetteville's 55 miles of multi-use trails, 55 miles of soft surface trails, and 37 parks consisting of 4,202 acres and three lakes. The officers assigned to this unit regularly utilize bicycles and all-terrain vehicles for their patrols; however, it is imperative for public safety to have a means to quickly access our ever-growing parks and trail systems in the event of an emergency and for crime prevention. The police department's current bicycles and all-terrain vehicles lack the range and ability to handle some of our more remote areas, such as Kessler Park, Centennial Park, and Lake Wilson. This asset that was approved by City Council in the 2024 budget will also allow our officers to be able to more adequately patrol the parks and trail systems during inclement weather. Currently, officers must attempt to patrol the parks and trails system in a patrol vehicle during inclement weather.
